

ARCHITECTURAL STANDARD

BENCHES

In order to maintain the architectural integrity of the community, the Hammocks Cape Haze Master Association approves the addition of benches to be installed at various locations around the development.

This standard dictates the supplier, style and installation of the benches as follows.

Approved Supplier

Belson Outdoors LLC
627 Amersdale Drive
Naperville
IL 60563
Tel: (800)323-5664

Style

The benches are constructed of recycled plastic resinwood with powder-coated heavy-duty cast aluminum frames, and the models to be installed are:

Heritage Bench – 4' Length Model PB4-HER in Cedar/Green

Heritage Backless Bench – 4' Length Model PB4-HERBACK in Cedar/Green

Details of each bench style are attached to this standard.

Installation

All benches are to be bolted down on to pavers, or on to the decking of the Boardwalk, to ensure safety and prevent unnecessary movement, and will be installed and maintained as necessary by the Hammocks property team.

For safety reasons, the benches will be sited at least two feet away from any adjoining sidewalk or roadway.

Heritage Bench

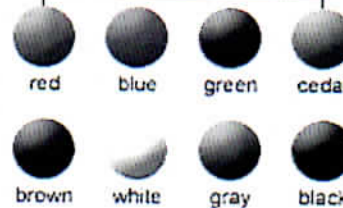

Model PB6-HER

Contemporary Comfort

Made with nine 2" x 4" recycled plastic resinwood slats and powder-coated, heavy duty cast aluminum frames, these Heritage Benches are the industry standard for architectural design. The under structure is braced with length and width supports. The recycled plastic resinwood slats are available in an array of color options. Powder-Coated cast aluminum frames are available in black and green. Hardware is stainless steel.
